

Commonwealth ★ Dairy ★

ABOUT

Several years ago our Company founders embarked on a mission to make yogurt everyone could love. Almost ten years later, and two facilities in full swing, we are proud to make yogurt products that can be found in supermarkets, club stores, food service outlets and convenience stores located throughout the United States!

Our dairies have continued to grow through team effort and openness, and we believe that it is this team effort that will allow us to prosper. We are looking for positive, productive people to join in making contributions to our growing team!
